Faculdade Módulo Paulista

Technologies: C#, .Net Core, SQL , Node.Js, Python, Javascript, Java, TypeScript, Angular, MySql, Rust

WORK EXPERIENCE

Jun. 2023 – current

São Paulo, Brasil

Metrix, Crypto Fund

Software Engineer Sr

I work as a software developer, building and maintaining a platform that generates dynamic dashboards. These dashboards consolidate metrics from multiple third-party platforms, delivering comprehensive insights. Furthermore, the platform tracks and manages the fund's transactions and returns.

Oct. 2021 – Jun 2023

São Paulo, Brasil

DOTZ, Fintech
